### ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

Infantile paralysis has again appeared in New Haven, the youngest son of Mr. and Mrs. John Betts being afflicted.

Forty hens owned by Mrs. C. H. Co-burn of West Burke laid within a week 120 eggs, or just an even ten dozen.

Fred Rumrill, who lives on the farm known as the Frank Gold place near the Harlow bridge, in Northfield, shot a bobcat last week near his biuldings which weighed 50 pounds.

Bernice Gertrude and Eunice Pauline, daughters of Mr. and Mrs. H. J. Obie of Bradford, who were christened Christmas day, are the first twins born in that town for over 20 years. Fred Chamberlin, for 14 years mail

has resigned on account of ill health His patrons on the route presented him 871 as a Christmas gift. A feature of the Christmas exercises

at the Baptist church in Poultney was had been resting on the church property for some time. Charles, six year-old son of Mr. and

fell backward into a tub of scalding water Friday afternoon and was badly burned on the back and both arms. An ocean to ocean telephone demon

### MAGAZINES BOOST PRICE.

Higher Cost of Materials Is Responsible for Increase.

New York, Jan. 1 .- Owing to the increased cost of white paper and other materials neessary to printing and art work, several magazines of national circulation announced Saturday increases in price of subscription. Other periodicals have already given notice of a sim-ilar jump in prices. Several of the small-er magazines in New York have suspended publication and others are planning to merge with publications controlled by the same interests. Publishers explain that many of them have had to renow their contracts for paper at this time and to pay nearly 50 per cent more than this litem has cost them in the past. The rise in subscription prices announced on Saturday ranged from 20 to 30 1-3 per

### A VERMONT CAMPAIGN.

Conducted.

Enforce Peace, under the leadership of soil is not tajured by the animals, and Judge Henry C. Ide of St. Johnsbury, a very little corn goes to waste or spoils the study of the trucking soils in cernewly elected member of the executive by coming in contact with the soil. The tain typical areas in New Jersey was committee of the American branch of the stalks are left in good shape to prevent completed and similar work was inauguleague, has now organized its executive the drifting of snow. committee, which met in Montpelier recently.

The executive committee consists of Dr. Guy Potter Benton, chairman, president of the University of Vermont, Bur- By 10 Mines in Arizona, According to eight states, about 20 projects and a ington; Hon, Charles W. Gates of Montpelier, Hon, John Abner Mead of Rutland, James B. Estee of Montpelier, Jo-Horace F. Graham of Montpelier, James Hartness of Springfield; ex-officio, Judge Henry C. Ide of St. Johnsbury, president; Ralph E. Flanders of Springfield, secretary-treasurer.

The primary object of the League to Enforce Peace is to make war less probable by the establishment of an international court or some other suitable body which will have the backing of all nacarrier on a rural route in Vergennes, tions, with force or economic pressure, large a draft been made on the natural if necessary.

It is understood that the United States could not take part in such a league without the consent of the American people. At the present time there are state branches in 44 of the 48 states of the burning of a \$200 mortgage which the union. The Vermont committee is organized on the same plan as committees in these other states.

Mr. John C, Burg, district secretary for New England, was present at the Mrs. A. C. Stacy of West Brattleboro, Montpelier meeting, which was a most interesting and enthusiastic one, and suggested to the Vermont committee a program for an educational campaign to e conducted throughout the state during the next few months, to make known the objects of the League to Enforce

Mr. Burg stated the league's platform dore N. Vail at Lyndonville with San briefly, as follows: A league of nations with (1) a world court, (2) a council of conciliation, (3) a boycott and an inter-Twenty-two barrels of apples were national military force against an agfrozen stiff Thursday night, when an em- gressor who refuses to arbitrate, (4) world conferences to develop internation-

### HUGE DIVIDENDS PAID

Geological Survey.

Ten mines in Arizona paid \$34,000,000 seph Fairbanks of St. Johnsbury, Hon. in dividends during the past year. Adding Utah, Montana, Nevada and Idaho dividends to those of Arizona we have a total of over \$100,000,000 in dividends paid out of the mines of these five western states in a single year.

These are some of the impressive facts to enable the state institution to cobrought out by the report of the geologi- operate. cal survey to Secretary Lane just made. "Never before," said Mr. Lane, "has so resources of our country as during this no investigation into the sharp rise in waste or utilized to better advantage in his family. National Life Ins. Co., of Vt. advancing the general prosperity of the (Mutual.) S. S. Ballard, general agent, country. Even as written in the plain Rialto building, Montpelier, Vt. figures of 1916 production the wonderful record of our mines sets forth a degree of national industrial independence only hoped for a few years ago.

"Again copper stands out as the best illustration of how American mines can meet a world demand. The output of 2,000,000,000 pounds of the red metal is double that of 10 years ago and its value is twice that of the copper produced in 1915. Add to this the facts that in value copper now contends with iron for first place among the metals and that together the amount of these two metals produced last year had a value of more than \$1,000,000,000 and we have a measure of what this country can contribute in useful metals.

"The output of zine from domestic ores increased last year 95,000 tons, which makes a new record for that metal, the total value of spelter from United States ore being \$150,000,000. Lead also shows a large increase, the \$75,000,000 output being a gain of more than 50 per cent.

"With all this activity in metal production the coal mines have had to meet a heavy demand, so that the bituminous coal output has now passed the 500,000, 000 ton mark, an increase of 121/2 per cent over the previous year. Coke duction increased 30 per cent and it is

mund O'Sullivan, Co. I, first New Hamp- or 11,000,000 barrels more than in 1915.

duction increased 30 per cent and it is gratifying to note that by-product coke made the largest gain, which means a corresponding gain in benzol and other valuable by-products.

"Again the oil wells have given a new record for petroleum yield, the estimate of marketed production of crude petroleum for 1916 being 292,000,000 barrels, or 11,000,000 barrels more than in 1915.

"Another mineral product which furnishes an index of business conditions is estimated to be 5,000,000 barrels in excess of the output of the previous year, while the shipments were even greater, aggregating 94,500,000 barrels, with the outlook reported as good for the new year.

"The reports received from the survey's western offices contain most significant mining records. Every western state shows a large increase in yield of the town of Barre, in said district, deceased, was presented to the court aforesuld, for probate.

And it is ordered by said court that the 15th day of January next for examining and in asid Montpeller, be assigned for proving said instrument: and that notice thereof be given to all persons concerned, by publishing this order three weeks successively in the Barre Daily Times, a newspaper circulating in that vicinity, in ead district, previous to the time appointed.

THEREFORE, you are hereby notified to appear before said court, at the time and place aforesuld, and contest the probate of said will, if you have cause.

"The reports received from the survey's western offices contain most significant mining records. Every western state shows a large increase in yield of His home was in Frelighsburg, the accidental discharge of a rifle he was estimated to be 5,000,000 barrels in ex-Que.
